Chilled Artificial Insemination (AI) packages

Chilled semen (up to 2 cycles) - £540 inc VAT. Services included below:

- Ultrasound scans up to 18 days pregnancy
- Endometrial swabs
- Post covering treatments
- Oxytocin and uterine lavage
- Hcg/Ovuplant/Deslorelin (ovulatory agents).
- Prostaglandin
- Semen examination and storage

Subsequent chilled semen cycles - £310 inc VAT

If artificial insemination has to be abandoned due to the results of an initial ultrasound scan/significant problem occurs then a fee of only £90 inc VAT is payable.

Livery fees

- £25 per day inc VAT.
- This includes bedding, hay and hard feed such as "happy hoof." Should you require any special feeds/supplements then please bring these with you.
- Twice Daily hand grazing

Visit fees

- These will depend on your area. Please call the office if you require visits
- The first visit is full price. Then subsequent visits are charged at half price.

What's not included?

Sedation if required for scanning. Other items such as unrelated conditions; vaccinations; insurance examinations; lameness examinations/treatment or otherwise unrelated to breeding.

Payment

Fees are paid for up front at the start of treatment which will attract a 5% discount. Otherwise they will be charged in the usual way to your account and invoices sent out at the earliest convenience after treatment.

Frozen semen

We regret to say that we are currently unable to offer frozen semen packages at present. We are hoping to add this service as of 2019.
